

March 16, 2020

Hello!

As a result of the COVID 19 health emergency, many parents are stock piling infant formulas. Please be assured that Mead Johnson has supplies to ensure that retailers can be restocked and parents can order online. **If parents call your office to report that they can not find their Enfamil formula in the stores, please direct them to our website [www.enfamil.com](http://www.enfamil.com) which is an easy and efficient way for parents to get ANY Enfamil formula delivered right to their home.**

Our webstore features free shipping with orders of \$30 or more, and typically the products ship within 2 business days. If there is an emergency situation where a parent can't wait for a home delivery, and you do not have sample cans in the office to provide to them until their order would arrive, please don't hesitate to call me and I will deliver what is needed to your office.

Stay healthy!

Best regards,

Ellen Teresa Dogali
